Tim,

Attached is ACHD's modeling review of the Invenergy – AEC permit. I'm going to work with our document control administrator on Friday to hopefully setup a SharePoint.

My permitting folks let me know that AEC is out for public comment. I'm contacting you to get the final modeling report and any associated modeling files to do my normal review. I've seen bits of this analysis but can't remember exactly what I've seen (too much SO2 stuff going on plus we're having system glitches that prevent me from connection to our drives remotely).

Let me know what you have and what you can get me (and how I can receive it). Thanks in advance.
